Summary

- Adaptable IT undergraduate pursuing a Higher National Diploma in Information Technology (HNDIT), with practical project experience spanning software development, databases, networking fundamentals, and systems. Skilled in building and testing REST APIs, designing relational and non-relational databases, and implementing authentication and access-control systems. Familiar with core networking concepts (TCP/IP, DNS, DHCP, LAN/WAN), Windows environments, and troubleshooting hardware and software issues. Experienced in configuring and deploying local development and AI environments, with strong problem-solving, analytical, and documentation skills. Seeking to apply this broad technical foundation in an IT support, technical assistant, software/web development, networking, systems administration, or database-related role.

Education

Higher National Diploma in Information Technology (HNDIT)

2024–Present (Expected 2027)

Sri Lanka Institute of Advanced Technological Education (SLIATE)

Relevant Coursework: Database Management, Object-Oriented Programming, Software Engineering, Web Application Development

G.C.E. Advanced Level (A/L)

Combined Mathematics – S, Physics – S, ICT – C

Skills

IT Support & Troubleshooting: Hardware and software troubleshooting, technical issue resolution

Networking: TCP/IP, DNS, DHCP, LAN/WAN, IP Addressing

Systems: Windows Administration

Databases & SQL: MySQL, PostgreSQL, MongoDB, Prisma ORM

Programming & Web Development: JavaScript, TypeScript, PHP, React.js, Next.js, Node.js, Express.js

Security Fundamentals: Authentication, Authorization, User Permissions, Access Control, JWT

Tools & Version Control: Git, GitHub, Postman

Other: Technical Documentation & Testing

Soft Skills: Problem Solving, Analytical Thinking, Team Collaboration, Communication, Time Management, Adaptability, Attention to Detail, Self-Motivation, Fast Learning, Ownership

Projects

Employee Payroll Management System

[GitHub](#)

Tech Stack: MongoDB, Express.js, REST API, Node.js

- Developed a system for managing employee, attendance, and payroll records, with database functionality built in MongoDB.
- Implemented role-based access control and employee management features.
- Automated salary calculations, attendance tracking, and payslip generation; built and tested REST APIs for payroll operations.

Archivum – AI Knowledge Sharing Platform

[GitHub](#)

Tech Stack: PostgreSQL, Prisma, JWT, Qdrant, Ollama, Node.js, Express.js

- Designed a PostgreSQL database structure for document storage, retrieval, and user data management.
- Implemented JWT-based authentication, access control, and multi-tenant data isolation.
- Configured and deployed a local AI environment using Ollama and Qdrant, handling installation, configuration, and integration.

AI Resume Screening & ATS Scoring System

[GitHub](#)

Tech Stack: TypeScript, Ollama, Local LLM

- Developed an AI-based resume screening and scoring system using a locally configured on-device LLM environment.
- Implemented resume analysis and automated scoring based on predefined criteria, including application testing and deployment.

Certifications

- Certificate Course in Applied Information Technology (CAIT) – Sri Lanka Telecom Training Centre, Welisara
Modules: Introduction to ICT and Computer Hardware, Basic Information Security, Microsoft Word 2016, Microsoft Excel 2016, Microsoft PowerPoint 2016, Introduction to Graphics Software with Photoshop, IP Network with Broadband, Database Management Concepts with SQL, Basic Programming Concepts with Java, Introduction to Cloud Computing and IoT, Web Designing
- Advanced Certificate in English Language – British Way English Academy, Distinction Pass

Languages

Sinhala – Native | English – Intermediate
