PROFESSIONAL SUMMARY

Motivated HNDIT undergraduate specializing in full-stack web development, with hands-on experience building applications using ReactJS, Next.js, Node.js, Express.js, and MongoDB. Developed an AI-powered resume screening system and a payroll management system through academic projects. Seeking an internship opportunity to apply software engineering skills and contribute to a professional development team.

EDUCATION

Higher National Diploma in Information Technology (HNDIT) 2024 – Present

Sri Lanka Institute of Advanced Technological Education (SLIATE) | Expected Graduation: 2027

- Relevant coursework: Object-Oriented Programming, Database Management, Software Engineering, Web Application Development

TECHNICAL SKILLS

Languages: Java, JavaScript, PHP

Web Technologies: HTML5, CSS3, Tailwind CSS, ReactJS, Next.js, Node.js, Express.js

Databases: MySQL, MongoDB

Tools: Git/GitHub, Postman

Concepts: Object-Oriented Programming (OOP), REST APIs, MVC Architecture, SDLC, Full-Stack Development

SOFT SKILLS

Team Collaboration • Communication • Time Management • Adaptability

PROJECTS

AI Resume Screening & ATS Scoring System (ScanHire)

- Built a privacy-first ATS scoring tool that runs entirely on-device (no cloud AI, database, or login) so HR teams can safely process sensitive candidate data.
- Parsed resume PDFs server-side and sent extracted text with job requirements to a locally-running Llama 3.2 (1B) model via Ollama to extract structured skills, experience, education, and certification data as JSON.
- Designed a deterministic TypeScript scoring engine (Skills 40%, Experience 25%, Keywords 15%, Education 10%, Projects 10%) for an explainable, auditable ATS score out of 100.
- Delivered a single-page recruiter view with the ATS score, skill-gap breakdown, seniority level, and an AI-generated summary.
- Tech Stack:** Next.js 15, TypeScript, Tailwind CSS, Ollama (local LLM) | GitHub: github.com/Shajpg-star

Employee Payroll Management System

- Developed employee management and payroll modules to automate salary calculation and attendance tracking.
- Designed and implemented REST APIs using Express.js for processing payroll and attendance data.
- Integrated a MongoDB database to store and manage employee and payroll records.
- Tech Stack:** ReactJS, Next.js, Node.js, Express.js, MongoDB | GitHub: github.com/Shajpg-star

CERTIFICATIONS

- Cisco Networking Academy – JavaScript Essentials
- Cisco Networking Academy – Python Essentials
- Postman – Postman API Fundamentals
- Alison – User Interface Design with Figma

ACHIEVEMENTS & LANGUAGES

- Built and deployed a personal portfolio website showcasing academic projects (link above); maintains an active GitHub profile with project repositories

Languages: English (Intermediate) • Sinhala (Native)
